

Fibrasum

Supplement for pigs

Fibrasum: if for covering of crude fibre need or as a filler in low in nutrients recipes: Fibrasum supplemented existing crude fibre components due to its high value of ADF.

Your advantages:

- ▶ GMO-free
- ▶ High value of crude fibre
- ▶ Development of a healthy intestinal flora
- ▶ Additional source of energy due to the release of short-chain fatty acids
- ▶ Sows: improvement of fibre digestion and faeces consistency
- ▶ Suitable in therapy of failure and easing of the animals by sufficient saturation
- ▶ Low phosphorus content

In case of any questions and for further informations please get in touch with our SN-feed adviser Mr. Robert Fritsche.

You will reach him at:
