Spezialfutter Neuruppin GmbH & Co. KG

RUPPNER MINERAL - GRANULAT

Whole food mineral feed for daily mineral supply

Our Ruppiner Mineral in granule form is a high-quality, grain-free complete mineral feed. It contains alfalfa and oregano, which serve to improve absorption due to their natural taste. Minerals, vitamins and trace elements are vital nutrients that are important building blocks for almost all functions in the body, in order to ensure that these functions run smoothly. The mineral supply also has a great influence on the horse's skin, hooves, hair, metabolism and cell protection. The balanced ratio of minerals ensures an optimal supply for your horse.

Feeding recommendation: This supplementary feed may only be fed with up to 25 g / 100 kg body weight due to the higher contents of vitamin D3 and trace elements compared to complete feeds. The feeding recommendation refers to a roughage intake (hay) of 1.5 kg per 100 kg body weight and day. Depending on the performance requirements, we recommend a daily dose of 15 g to 25 g per 100 kg body weight. For a large horse, this corresponds to a dose of approx. 100 g - 150 g per animal and day. One measuring cup corresponds to approx. 120 g.

Zusammensetzung: Calcium Carbonate, lucerne meal, sodium chloride, magnesium phosphate, monocalcium phosphate, sugar beet molasses

Analytical constituents and contents: 12.0% calcium, 3.0% phosphorus, 8.0% sodium, 2.5% magnesium

Additives per kg: Vitamin A: 300.000 I.U., Vitamin D3: 55.000 I.U., vitamin E: 3.000 mg, vitamin C: 1.000 mg, vitamin B1: 50 mg, vitamin B2: 125 mg, vitamin B6: 75 mg, vitamin B12/cyanocobalamin: 500 mcg, niacinamide: 625 mg, biotin: 5.250 mcg, folic acid: 6 mg, calcium-D-pantothenate: 312 mg, iron: 2,000 mg, copper: 900 mg, zinc: 10,000 mg (partly organically bound), manganese: 2,500 mg, cobalt: 40 mg, iodine: 70 mg, selenium: 25 mg

Packing: 4 kg bucket / 20 kg bag
